

DVD: Golden Age of Knowledge for Eternity

David Miscavige made significant claims in a DVD video presentation of his OT Summit Speech of 29 June 2007, titled Golden Age of Knowledge for Eternity.

The exact right step in the exact right gradient produces an exact and invariable result. In practical terms it tracks out like this:

Those listening to Congresses¹ while auditing routinely enjoy a 350 point gain in OCA scores, six times expected increase in IQ, double the speed of progress through expanded grades and NED, and double again the speed through OT levels.

So, yes, what you might call Golden Age of Knowledge Phase 1 was an unqualified success, but let's phrase it another way: When you get the tech as LRH intended, in the exact form he intended, you get the results he intended when you apply it in your life. All right. [end: 14:30]

The following images were embedded into the DVD presentation as Miscavige gave the claims above. Graphics like these are normally shown on the large screens to the left and right of the stage.

Hubbard was an accomplished stage hypnotist, and boasted of mass hypnotizing audiences, such as the staff at St. Elizabeth's hospital for schizophrenics.

He used hypnotic techniques in his Scientology lectures, which include implanting strong posthypnotic suggestions that his readers and listeners are not being hypnotized and that Dianetics and Scientology are not hypnosis.

Note: In a 30 September 2007 Executive Directive, Scientology's Flag Ship Service Org instructs all Scientologists and FSMs (field staff members) how to get everyone in their zone buying their new \$3000 "Basic Books and Lectures" package and into the org doing the new basics training courses. If the FSMs can't get their selectees' bodies into the shop, the Field Control Secretary says she will mail them copies of the DVD.

5. Conditional: if you come across anyone who has not yet seen the Golden Age of Knowledge for Eternity event, get them in to see the event. If for any reason they cannot immediately come in to the org to see the event, let me know by e-mail (Field Control Sec FSSO) and I will mail them a copy of the event DVD.

I believe Miscavige uses several hypnotic techniques in this presentation, including the Alice in Wonderland confusion technique. Ref. CIA "KUBARK" interrogation and torture manual.
